

BRUNSHAW PRIMARY SCHOOL

OUR VISION:

Inspiring children to be resilient and aspirational learners,
within a positive and considerate community.

British Values in Design and Technology

At Brunshaw Primary School, we develop and promote British Values throughout our school and within our curriculum. A key part of our plan for education is to ensure children become valuable and fully rounded members of society who treat others with respect and leave school fully prepared for life in modern Britain.

In the subject area of DT we promote British Values in the following ways:

The Rule of Law

- We understand that there are many safety rules that surround the tasks they are carrying out.

Democracy

- We vote for our favourite food choices and materials used in the design/making process.

Individual Liberty

- We understand that we have the freedom to make choices in the planning and design stages and we explain the reasons for our choices.

Mutual Respect

- We respect the choices made by others, even if it is different to our own.

Tolerance for those of different faiths and beliefs

- We look at where foods come from, how they are grown and in KS2 touch on ethical issues around food for example in Year 5 learning how beef is reared and processed and the ethical issues around cattle farming.
