

BRUNSHAW PRIMARY SCHOOL

OUR VISION:

Inspiring children to be resilient and aspirational learners,
within a positive and considerate community.

British Values in Geography

At Brunshaw Primary School, we develop and promote British Values throughout our school and within our curriculum. A key part of our plan for education is to ensure children become valuable and fully rounded members of society who treat others with respect and leave school fully prepared for life in modern Britain.

In the subject area of Geography, we promote British Values in the following ways:

The Rule of Law

- We look at how to take care of our world and animals that live on our planet.
- We study rules of our country and other countries.
- We look at ways to reduce the use of plastics and the importance of recycling.
- We learn Road Safety rules.

Democracy

- We hold discussions around our government, including how and why leaders are elected.
- We use of BBC Newsround to update on current affairs.

Individual Liberty

- We look at our rights to campaign around local and national issues eg fracking near Blackpool, Climate Change.

Mutual Respect

- Through many of our units of work, we discuss the need to respect all those that live in a community starting with our school community.

Tolerance for those of different faiths and beliefs

- We study different cultures in countries that are studied.
