1st July 2022

Dear Parents/Carers,

Next Wednesday, 6th July, Year One will be participating in a den building day. This activity will take place in school and supports our learning of structures in Design Technology. It will also help us with team work and resilience skills as we attempt to build a den that will stay up and keep us dry.

In the morning we will build our dens and in the afternoon our dens will be tested for stability and how waterproof they are. This will include buckets of water being poured on the dens (with plastic covering as a roof) with the children sat inside! Depending on how well the den has been made, will decide how wet or dry the children are after the 'storm' has come.

Please send your child on this day in clothes that you are happy for them to get dirty and wet! You may wish to send wellies and a waterproof coat as well. Then again, the weather may be kind and we might need sun cream and a sun hat....this is Burnley after all! Please check the weather forecast and dress your child accordingly.

You may also want to send you child with a change of clothes so if they get too wet they can change. I'm sure you'll agree this will be a great experience and Mr Kay and I cannot wait to get building.

Look out for all the pictures on the newsletter.

Kind Regards

Mrs Bull and Mr Kay

Resilient, Aspirational Learners
