# **Brunshaw Primary School**

'Inspiring children to be resilient and aspirational learners, within a positive and considerate community.'

# Use of Artificial Intelligence (AI) Policy

September 2025

Agreed by Governors: 5/10/25

#### Statement of intent

Artificial Intelligence (AI) technology is already widely used in commercial environments and is gaining greater use in education. At Brunshaw Primary School, we recognise that the technology has many benefits and the potential to enhance outcomes and educational experiences, with the opportunity to support staff in reducing workload.

We also realise that there are risks involved in the use of AI systems, but that these can be mitigated through our existing policies and procedures, amending these as necessary to address AI risks.

We will educate staff and learners about safe and ethical use of AI, preparing them for a future in which AI technologies are likely to play an increasing role.

The safeguarding of staff and learners will, as always, be at the forefront of our policy and practice.

## **Related policies**

This policy should be read in conjunction with other school policies, including:

- Data Protection Policy
- Staff Handbook and Code of Conduct
- Positive Relationships and Behaviour Policy
- Anti-Bullying Policy
- Online Safety Policy
- Acceptable Use Policies for staff and pupils
- Safeguarding and Child Protection Policy
- PSHE Policy

#### **Policy Statements**

- Brunshaw Primary School acknowledges the benefits of the use of AI in an educational context including enhancing teaching and learning and outcomes, improving administrative processes, reducing workload and preparing staff and learners for a future in which AI technology will be an integral part. Staff are encouraged to use AI based tools to support their work where appropriate, within the frameworks provided below and are required to be professionally responsible and accountable for this area of their work.
- We will comply with all relevant legislation and guidance, with reference to guidance contained in Keeping Children Safe in Education.
- We will provide relevant training for staff and governors in the advantages, use of and
  potential risks of AI. We will support staff in identifying training and development
  needs to enable relevant opportunities.
- We will ensure that, within our curriculum, learners understand the ethics and use of AI and the potential benefits and risks of its use. The school recognises the importance

- of equipping learners with the knowledge, skills and strategies to engage responsibly with AI tools.
- As set out in the Acceptable Use Policy for staff, the school will use AI responsibly and
  with awareness of data sensitivity. Where used, staff should use AI tools responsibly,
  ensuring the protection of both personal and sensitive data. Staff should only input
  anonymized data to avoid the exposure of personally identifiable or sensitive
  information.
- Staff should always ensure AI tools used comply with UK GDPR and other data protection regulations. They must verify that tools meet data security standards before using them for work related to the school.
- Only those AI technologies approved by the school may be used. Staff should always
  use school-provided AI accounts for work purposes. These accounts are configured to
  comply with organisational security and oversight requirements, reducing the risk of
  data breaches.
- We will protect sensitive information. Staff must not input sensitive information, such as internal documents or strategic plans, into third-party AI tools unless explicitly vetted for that purpose. They must always recognise and safeguard sensitive data.
- The school will ensure that when AI is used, it will not infringe copyright or intellectual property conventions care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
- Al incidents must be reported promptly. Staff must report any incidents involving Al misuse, data breaches, or inappropriate outputs immediately to the relevant internal teams. Quick reporting helps mitigate risks and facilitates a prompt response.
- Brunshaw Primary School will audit all AI systems in use and assess their potential impact on staff, learners and the school's systems and procedures, creating an AI inventory listing all tools in use, their purpose and potential risks.
- We are aware of the potential risk for discrimination and bias in the outputs from AI
  tools and have in place interventions and protocols to deal with any issues that may
  arise. When procuring and implementing AI systems, we will follow due care and
  diligence to prioritise fairness and safety.
- The school will support parents and carers in their understanding of the use of AI at Brunshaw Primary School.
- Al should assist, not replace, human decision-making. Staff must ensure that final
  judgments, particularly those affecting people, are made by humans and critically
  evaluate Al-generated outputs. They must ensure that all Al-generated content is factchecked and reviewed for accuracy before sharing or publishing. This is especially
  important for external communication to avoid spreading misinformation.
- Staff members involved in the improper use of AI tools, including breaches of data protection standards, misuse of sensitive information, or failure to adhere to this agreement, will be subject to disciplinary action.

# Responsibilities

#### Head teacher, Senior Leaders and the Online Safety Lead

Are responsible for the strategic planning of how AI will be used in the school, establishing AI policies and procedures and ensuring that all staff receive relevant training and have a clear understanding of these.

# **Designated Safeguarding Lead (DSL)**

Our Designated Safeguarding Lead has responsibility for online safety in the school. They are expected to have knowledge of AI and its safeguarding implications and an in-depth working knowledge of key guidance. We ensure that they receive appropriate specialist training, commensurate with their role and that ongoing training is provided for all school staff.

#### **Data Protection Officer**

The DPO will be responsible for providing advice and guidance about data protection obligations in relation to the use of AI, including related Data Protection Impact Assessments (DPIAs).

#### **IT Technician**

The school's IT Technician will be responsible for technical support and guidance, with particular regard to cyber-security and the effectiveness of filtering and monitoring systems.

#### Staff

It is the responsibility of all staff to have read and understood this and associated policies. All staff must report any incidents or suspected incidents concerning the use of AI in line with school policy. All staff will challenge any inappropriate behaviour. Staff have a duty to ensure that:

- the school environment is safe
- sensitive and confidential data / information is secure
- that their actions do not put the reputation of the school at risk and that
- learners understand their responsibilities

## Governors

We ensure that our governing body has a good understanding of how AI is used in a school context and potential benefits and risks of its use. They receive regular training and updates, enabling them to support the school and challenge where necessary. This may include evaluation of the use of AI in the curriculum, administration and communications, ensuring that risks relating to these issues are identified, that reporting routes are available, and that risks are effectively mitigated.

#### Parents/carers

At Brunshaw, we work hard to engage parents and carers by:

- holding regular stay and learn sessions
- hosting regular coffee mornings
- offering support from our Pupil and Family Support team
- sharing weekly newsletters
- sharing updates and events online via our website, social media and Class Dojo
- sharing curriculum information via our school website

Our parents and carers are made aware of how AI is used in school and receive guidance on both good practice in its use and the risks of misuse that may affect their children's learning or safety. They are encouraged to report any concerns to the school and are made aware that all incidents will be handled with care and sensitivity.

# **Vulnerable groups**

We recognise that vulnerable learners are more likely to be at risk from the misuse of AI (both in their own use or through the actions of others). We ensure that vulnerable learners are offered appropriate support to allow them to gain full benefit of the use of AI, while being aware of the potential risks.

Children are considered to be vulnerable data subjects and therefore any process involving their personal data is likely to be "high risk". If an AI/ automated process is used to make significant decisions about people, this is likely to trigger the need for a Data Protection Impact Assessment (DPIA).

#### Reporting

Our reporting systems are well promoted, easily understood and easily accessible for staff, learners and parents/carers to confidently report issues and concerns, knowing these will be treated seriously. All reports will be dealt with swiftly and sensitively and outcomes shared where appropriate.

#### Responding to an incident or disclosure

Our response is always based on sound safeguarding principles and follows school safeguarding and disciplinary processes. It is calm, considered and appropriate and puts the learner at the centre of all decisions made.

- All Al incidents (including data breaches and/or inappropriate outputs) must be reported promptly to the relevant internal teams. Effective reporting helps mitigate risks and facilitates a prompt response.
- Where relevant / required, incidents will be reported to external agencies e.g., Police, LADO, DPO, ICO.
- All AI related incidents will be recorded using CPOMS.

In the case of misuse of AI by staff, the normal staff disciplinary processes will be followed.

#### Risk assessment

It is key that our approach to managing risk aligns with, and complements, our broader safeguarding approach.

Brunshaw Primary School understands that despite many positive benefits in the use of AI, there are some risks that will need to be identified and managed, including:

- Legal, commercial, security and ethical risks
- Data Protection
- Cyber Security
- Fraud
- Safeguarding and well-being
- Duty of care

A risk assessment of the use of AI at Brunshaw will be undertaken and regularly reviewed by the IT Technician, Head teacher, Online Safety Lead and members of the Governing Body.

#### **Education**

Our school's educational approach seeks to develop knowledge and understanding of emerging digital technologies, including AI.

This policy outlines our commitment to integrating Artificial Intelligence (AI) responsibly and effectively within our school environment. We will use AI responsibly, safely and purposefully to support these aims:

- Enhance academic outcomes: Improve educational experiences and performance for pupils.
- Support teachers: Assist in managing workloads more efficiently and effectively.
- Educate on AI use: Promote safe, responsible, and ethical AI practices among staff and learners.
- Develop AI literacy: Incorporate AI as a teaching tool where appropriate to build AI skills and understanding.
- Prepare for the future: Equip staff and pupils for a future where AI is integral.
- Promote educational equity: Use AI to address learning gaps and provide personalised support.

Our school's approach is to deliver this knowledge and understanding wherever it is relevant within the curriculum. This will include:

- Online Safety
- Computing
- PHSE
- Cross curricular units of work/lessons
- Discrete lessons

- Key Online Safety focus weeks throughout the year
- Visits from outside agencies

Our approach is given the time it deserves and is authentic i.e., based on current issues nationally, locally and within our school's risk profile. It is shaped and evaluated by learners and other members of the school community to ensure that it is dynamic, evolving and based on need. We do this through:

- Learner assessment
- Critical evaluation of emerging trends and research findings
- Parental engagement
- Staff consultation and training
- Half-termly meeting with a representative from each class (Y1 6 Online Safety Champions)
- Termly meetings focussing on Online Safety, filtering and monitoring. These
  meetings include the DSL, DPO, IT Technician, Online Safety Lead and members of
  the Governing Body.

#### The following resources are used:

- <u>UKCIS Sharing nudes and semi-nudes: advice for education settings working with children and young people</u> (including updated AI reference)
- ProjectEVOLVE https://projectevolve.co.uk
- <u>UKCIS DSIT "Education for a Connected World"</u>
- Keeping children safe in education

In line with good practice, we have created child-friendly versions of key safeguarding policies, produced and regularly evaluated in consultation with our pupils. These include:

- Attendance
- Bullying
- Keeping Safe
- Online Safety
- Relationships and Behaviour
- Acceptable Use for Pupils
- Home School Agreement
- Child-on-child Abuse

A child-friendly version of this policy will be created and shared with all pupils in line with curriculum updates.

#### **Training**

As AI becomes an integral part of modern education, it is essential for staff to be trained in its effective use. Training equips educators with the knowledge and skills to integrate AI tools responsibly into teaching, learning, and administrative processes. It ensures that AI is used to enhance educational outcomes, streamline workloads, and promote equity while

safeguarding ethical practices and data privacy. By fostering AI literacy, staff can confidently prepare pupils for a future where AI is a key driver of innovation and opportunity.

- We will provide comprehensive training to all staff on the effective, responsible, and ethical use of AI technologies in education, ensuring these tools enhance teaching, learning, and administrative processes.
- We will integrate AI-related risks and safeguards into annual safeguarding training, aligning with statutory guidance, including Keeping Children Safe in Education.
- We will ensure all staff are equipped with the knowledge and skills to confidently integrate AI into their professional practice and to prepare pupils for a future shaped by AI-driven innovation and opportunities.
- We will train staff to identify, assess, and mitigate risks associated with AI technologies, including issues such as biased algorithms, privacy breaches, and harmful content.
- We will train staff on robust data protection practices, ensuring compliance with UK GDPR and other relevant regulations while using AI systems.
- We will promote ethical practices in the use of AI, ensuring that these technologies contribute to equity, fairness, and inclusivity in education.
- We will empower educators to teach learners about the safe and ethical use of AI, cultivating a culture of awareness, resilience, and informed decision-making in the digital age.
- We will train staff to use AI responsibly as a tool to monitor and address online risks, reinforcing our commitment to a safe learning environment.
