Facts I will learn • A mixture of high and low pitched sounds put together make a tune. • To be able to match pitch you have to listen carefully. • A lullaby is a quiet, gentle song to help babies get to sleep. Key questions • Is a tune created using only low pitched sounds or high pitched sounds? • Is it just your voice that is important when trying to match a pitch? • What is a lullaby and what musical features does it have? • What is an ostinato? • What do we need to consider when we perform together?
